Kaps HNO-SOM_Behandlungseinheit / en / 2016-08

In combination with a column the SOM[®] 22 Examination Microscope is also used for fixing to the treatment units of all leading ENT unit manufacturers. Together, these form a harmonious unit.

You can either order a column for Kaps examination microscopes as an extra item when you place your order, or you can order the microscope directly from the manufacturer of the unit.

OUR FOCUS IS ON YOUR VISION
